

Foundation MicroStation (any previous version)

Overview

This course is designed for new users or users with very little experience of any older earlier version of MicroStation. No previous CAD experience is necessary. However, some drafting, design, architectural or engineering experience would be an advantage. It is recommended that delegates have a little working knowledge of Microsoft Windows.

All training held at TutorCAD Offices are inclusive of comprehensive course manual, a variety of refreshments, buffet lunch and certificate.

Duration

3-days
